

Be Careful to Prevent the Spread of COVID-19!

The Five Scenes With a Heightened Risk of Infection

At the end of the year there are a number of events you may be invited to. While practicing the New Normal, make sure to be especially careful of the following 5 scenes in order not to catch COVID-19

※Contents of this flyer are sampled from "Five scenarios" by the Federal Government

Scene① Eating and drinking at social gatherings

- Staying with a large group of people for a long time.

Scene② Eating and drinking with large groups of people for long periods of time

- Sharing glasses and chopsticks.
- Getting excited and talking loudly
- Small spaces with close-contact

Scene③ Socializing without a mask

- Talking in close proximity to others

* Be careful of the infection in enclosed areas like karaoke rooms and inside vehicles, but also at outdoor events such as barbecues.

Scene④ Cohabitation in small space

- Spending time in a closed communal space for hours.
- Common spaces such as dormitory rooms and shared toilets have been reported to contribute to the spread of COVID-19.

Scene⑤ Changing places

- When changing places, for example, when you are on a break at work, your risk of infection may increase due to relaxation and changes in the environment.
- It is believed that infection occurs in break rooms, smoking areas, and changing rooms, where precautions are less strict.
